ANAK DOMBA Bali - How it all began

During her trip to Indonesia in November 2012 - Bali and Lombok - Angela Bendix became also aware of the dark sides of the islands.

When she was on a weekly market in the North of Bali she met an Indonesian couple by chance, who invited her straight to their home.

They told her about their plan to found an orphanage/children's home to give orphans, abandoned and disadvantaged children a loving and safe home and provide a proper education to enable the children to stand on their own feet later in their life.

This first encounter inspired and encouraged Angela Bendix to become active and support the establishment of this project.

In the meantime, since July 2013, the project has become a new home for 10 children, who are so far completely funded by donations. These donations cover the costs of living, clothes, books, school materials and school fees.

„Anyone who has ever been to Bali or any of the other Indonesian islands, has seen the grinding poverty in the villages. Children are given away or even sold, because they would otherwise starve to death.“

< Angela Bendix >

The project - Future for children

Our mission is to accommodate in an orphanage/children's home the children and young people who grow up without parents or families or under difficult conditions.

EDUCATION and UPBRINGUNG are the main focuses of our project.

Our GOAL is ...

- to protect the children from abuse and life on the streets due to poverty and destitution,
- to create a secure and stable social environment by regular and continuous care and upbringing and give them the chance for an independent life through a profound school education. („Capacity building“)

Impressions
Anak DOMBA Bali

„I don't believe in circumstances. The people who get on in this world are the people who get up and look for the circumstances they want, and if they can't find them, make them.“
< George Bernhard Shaw >
